**RTB and Partners Review TVET Progress, Set Future Priorities at Q3 Meeting**

Rwanda TVET Board (RTB) and its Development Partners held the Quarter 3 TVET Sub-Sector Working Group Meeting on February 14, 2025. The event brought together key stakeholders to review past achievements, evaluate ongoing projects, and align future initiatives with the National Strategy for Transformation (NST2).

*Q3 Sub-sector Working Group Participants*

Discussions focused on critical priorities, including the operationalization of the Rwanda TVET Trainers Institute (RTTI), the integration of e-learning and digitalization in TVET programs, and the establishment of centers of excellence. Preparations for the upcoming Rwanda FutureSkills Forum in Kigali were also highlighted.

# The Steering Committee of ISHEMA Project Reviews it's Progress

On February 19, 2025, the first Steering Committee meeting for the ISHEMA Project (Improving Skills for Holistic Employment in Modern Agriculture) – RWA/30 chaired by Pascal Gatabazi was convened to review the project's progress and key milestones.

Pascal Gatabazi, chairing the steering committee meeting

The ISHEMA Project, implemented by the Rwanda TVET Board (RTB) with the support of LuxDev, aims to establish three TVET Centers of Excellence in Agriculture. These centers will play a crucial role in equipping young Rwandans with modern agricultural skills, aligning with the country’s vision for sustainable and market-driven workforce development.

## RTB Empowers TVET Trainers in Aquaculture

On January 27th, 2025, 25 TVET trainers undertook an intensive 12-day aquaculture training program at Rubona Station and Kigembe Fish Farm. Organized by the Rwanda TVET Board (RTB) with support from various TVET key development partners.

Trainers who participated in the training

The program aimed to equip trainers with both theoretical and practical expertise in aquaculture, with a strong emphasis on animal health management. The initiative highlights RTB’s commitment to expanding specialized technical education, bridging skill gaps, and supporting national efforts toward a resilient and self-sustaining fish farming industry.

## RTB Trains In-Company Instructors About the Dual TVET Program

The Rwanda TVET Board launched a three-day training workshop for in-company instructors in the implementation of the Dual TVET approach.

In-commpany instructors in a workshop

The workshop aimed to strengthen industry experts understanding of TVET programs and career opportunities, equipping them with the necessary skills to effectively mentor trainees in workplace settings. They were also equipped with different skills to effectively mentor and support students placed in industries under the Dual TVET system.
